

ENTERPRISE
OFFSHORE DRILLING

Quality, Health, Safety and Environmental Policy Statement

Enterprise Offshore Drilling LLC is committed to an incident-free workplace. Our people, quality, health, safety and environmental (QHSE) excellence are core Company values in conjunction with providing environmentally responsible, reliable services to the oil and gas industry in order to meet or exceed customer expectations and enhance customer satisfaction. QHSE objectives serve to support our Company's strategic direction for survival and growth.

Management provides sufficient resources so that PeopleSafe and QHSE cultures are achieved throughout the Company. QHSE is managed by people working safely.

Supervisors instill taking the time to do each job right the first time, every time. Enterprise personnel will not only stop a job if unsafe conditions are perceived, they will not start a job until it is safe to proceed. Quality, personnel safety, asset integrity, and protection of the environment are not separate to performance, they are performance.

All employees are accountable, responsible, and obligated to eliminate at-risk behavior in themselves and others. Working safely is a condition of employment.

Enterprise Offshore Drilling LLC is committed to our stated objectives including:

- Deployment of common QHSE Industry Standard throughout the Company;

- Compliance with all applicable legal and other requirements to which the Company subscribes is maintained;

- Appropriate levels of risk assessment are applied to all activities for safety of personnel, preservation of property, and the protection of the environment, including prevention of pollution and other relevant specific commitments to achieve incident-free operations;

- Employees participate fully in QHSE processes, including PeopleSafe observations: suggestions for improvement are actively encouraged;

- The cause(s) of incidents are identified, analyze, and communicated at appropriate levels within the Company to prevent reoccurrence;

- The effectiveness of the Company's management system is continually improved.

W. Brad James, President and Chief Executive Officer
